Chrome Web Store

Hi there,

We regret to inform you that the most recent submission of your item was rejected. Please find the details below.

Item name: Trust Less Sign

Item ID: [jnpahlhbdfeanmcmdjajcdadmibcppdh](#)

Violation(s):

Use of Permissions:

- **Violation reference ID:** [Purple Potassium](#)
- **Violation:**

Requesting but not using the following permission(s):

 - activeTab
- **How to rectify:** Perform a full review of your extension's permissions:
 - Remove the unused permission(s) listed above from your manifest file.
 - Audit all other permissions requested by your item. Ensure every permission is actively used and necessary for your item's functionality.
- **Relevant section of the program policy:**
 - *Request access to the narrowest permissions necessary to implement your Product's features or services. Don't attempt to "future proof" your Product by requesting a permission that might benefit services or features that have not yet been implemented. ([learn more](#))*

This violation was detected as a result of an internal review. Learn more about enforcement [here](#).

Do you believe this was a mistake?

If you believe that this decision was made in error, please initiate an appeal request by following these steps:

1. Log into your [Chrome Web Store Developer Dashboard](#).
2. Select the relevant item from your list.
3. Navigate to the **Build > Status** page.
4. Locate the corresponding item revision (either the draft or the published version).
5. Click the **Appeal** button to submit your request for review.

If you are located in the EU, you can also learn about additional redress options that may be available to you [here](#).

Routing ID: FZSL

We value developer contributions to the Chrome Web Store, and look forward to helping you bring your item into compliance with our policies.

Thanks,

Chrome Web Store Developer Support
